Exterior Details

Uncompromising use of the highest quality materials in the design and manufacture of external components ensures their durability and longevity, and above all, safer and easier use.

Exterior details come together to create a unique and beautiful image that reflects the owner's taste and style.

— Interior

Interior comfort

The best use of interior space is the top priority of our interior design team, and the pleasant experience of semi-custom manufacturing offers personalization of the interior according to the owner's wishes.

A width of 4,2 meters, combined with a length of 14,4 meters allow variants that include two or three cabins, equipped with a bathroom and shower,

— A modernly equipped salon and wheelhouse with side door and a fully equipped kitchen located at the entrance to the outer cockpit, with an open folding kitchen window that perfectly combines the salon and the outer cockpit into one special unit.

— Monachus Issa 45

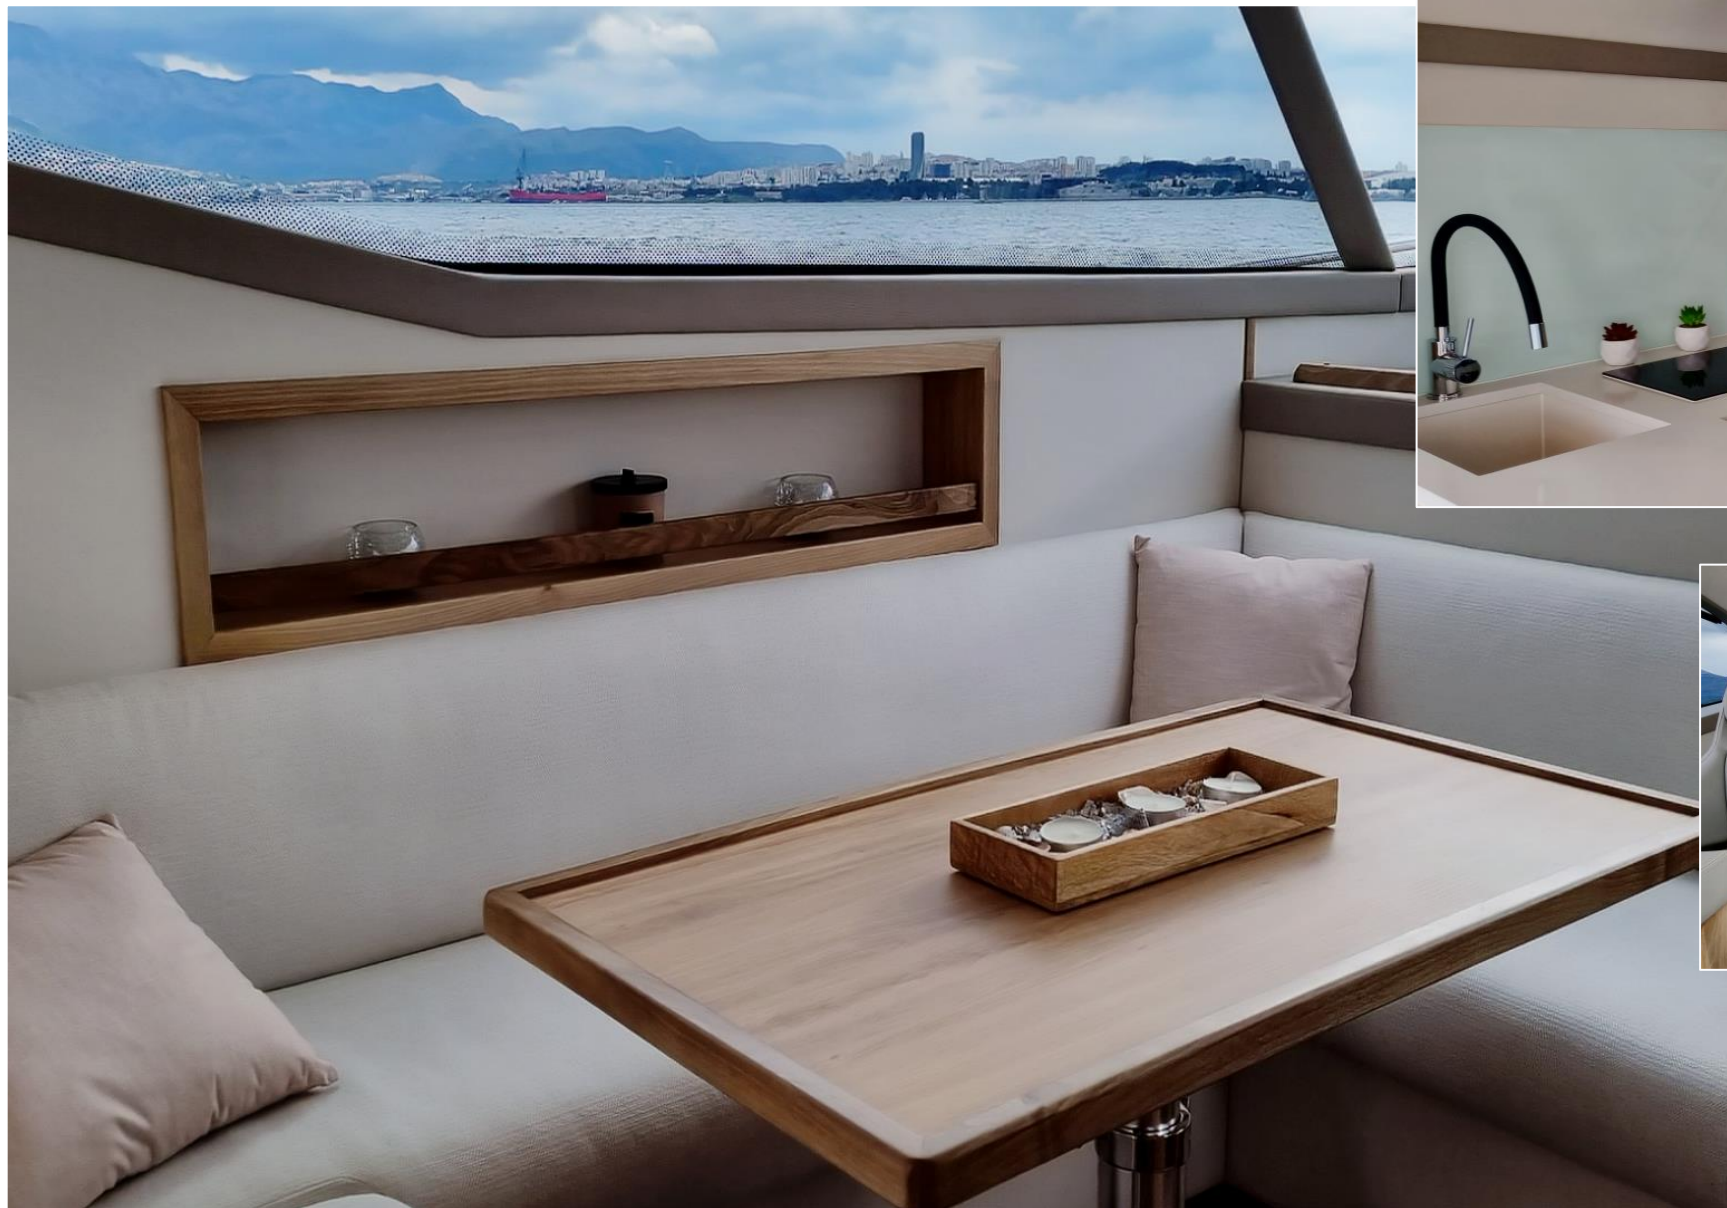

Salon & Wheelhouse

Salon is the main living space on the yacht designed in a comfortable classic style and consists of a kitchen, dining room and wheelhouse which is equipped with the latest navigation and communication systems.

Issa 45

The one-piece laminated and multi-axially curved windscreen gives the helmsman a fantastically clear view. An equally slightly raised bow at different cruising speeds ensures the lasting continuity of that clear view. Given the length of the waterline and the comfort of the 'cruiser' version for the 'Monachus-Issa 45', we underline the main features – unique, classically elegant, comfortable and safe!

— Engines

Powered by FPT Marine engines

Excellent seaworthiness is provided by the V-drive system and the standard application of FPT N60 engines, which are characterized by quality, excellent performance, economical and reliable even in the most demanding sailing conditions.

ENGINE (STANDARD)

Two engines FPT N60, each 400HP
Engine displacement: 5,9 lit.,
No. of cylinders: 6, common rail
Max speed: 28 kts | **Cruising:** 23 kts

ENGINE (OPTIONAL)

Two engines FPT N67, each 450HP
Engine displacement: 6,7 lit.,
No. of cylinders: 6, common rail
Max speed: 31 kts | **Cruising:** 26 kts

For customers seeking an alternative to the FPT N60 marine engine, we also offer the FPT N67 engine as an option. This motor provides similarly high-quality performance and reliability, making it a great choice for those looking to enhance their vessel's seaworthiness and efficiency.
